Students with disabilities shall be reasonably accommodated pursuant to federal and state requirements in all applicable programs in the District.

Student Accessibility Services (SAS) shall be the primary provider for reasonable accommodations, such as, academic adjustments, auxiliary aids, services, or instruction that facilitate equal educational opportunities for students with disabilities who can profit from instruction as required by state and federal laws.

SAS shall be available to students with verified disabilities. The reasonable accommodations to be provided include, but are not limited to, academic adjustments, technology accessibility, accessible facilities, equipment, instructional programs, rehabilitation counseling, and academic counseling.

No student with disabilities is required to participate in the SAS Program.

The District shall respond in a timely manner to accommodation requests involving academic adjustments. The Superintendent/President shall establish a procedure to implement this policy, which, at a minimum, provides for an individualized review of each such request, and permits interim decisions on such requests pending final resolution by the appropriate administrator or designee.
