University of California Agriculture & Natural Resources Statewide Integrated Pest Management Program (UC IPM); and
University of California Agriculture & Natural Resources Cooperative Extension Marin (UCCE Marin).

The District recognizes that maintenance of a safe, clean and healthful environment for faculty, students and staff is essential to learning. Providing safer alternatives to chemical pesticides reduces exposure of campus occupants and maintenance personnel to potentially hazardous chemical, biological and particle contaminants, while preventing economic and health damage caused by pests. Accordingly, the District will develop and implement a low environmental impact (integrated) pest management procedure that includes preferred pest management products, methods, inspections, monitoring and evaluation.

Date Adopted: January 20, 2009 (*Replaced College of Marin Policy 8.0029*)
